**MINUTES OF THE ANNUAL PARISH MEETING HELD ON WEDNESDAY
1st APRIL 2026 AT 7:00PM IN THE MAIN HALL,
KELSALE VILLAGE HALL.**

Present: Cllr Alan Revell (Chairman), Cllr Galloway, Cllr Holden, Cllr Buttle, Cllr Reynolds, Cllr O'Neill, the Clerk (Marie Backhouse) and 24 members of the public.

Cllr Alan Revell (Chairman) welcomed members of the public and representatives and formally opened the meeting. The agenda would be slightly amended with a break taking place after the presentation from the Kelsale School PTFA.

Public Forum

MofP 1 asked about the 20 mph proposal that has appeared in the Community News.

Cllr Revell reported that the process in which to make roads 20mph zones is becoming easier, and there is some assistance with the cost. It was agreed at the full Council meeting to survey suitable areas of the village.

MofP 1 commented that 20mph in Bridge Street is essential as he was almost knocked over by someone on a bike.

MofP 2 suggested that Bridge Street and Clay hills should be considered as both have become rat runs from Sizewell traffic.

Cllr Revell said that Carlton Road has also become a rat run for additional traffic.

MofP 3 asked if there could be a skate park on the recreation ground.

Cllr Revell said that the suggestion of a skate park could be considered by the Council.

MofP 4 asked if all the residents that have read the 20mph article in the Community News and support this proposal could contact the Clerk. Participation is essential.

1. To receive Apologies for Absence.

David Granville-George, Cllr Stewart, Cllr Gwynne, Cllr Ransome, Cllr West & County Councillor Richard Smith.

Presentation from Jenna, Kelsale School PTFA

The PTFA was re-established last Autumn. Jenna became involved as she has a child at the school. The PTFA is a voluntary group that supports the school. There is a need for the group to be inclusive, the idea is to bring people together to support the children. The PTFA supports independently and is usually a charity. The aims of the PTFA are to fundraise, support, organise events, and liaise with the community. The events held so far includes a School Disco for the children, a movie night held at the school which involved lots of popcorn, and a Quiz Night held at the Village Hall. The raffle was well supported by local businesses who gave generously. ESC has given a Community Cohesion Grant to the gardening club. So far, the PTFA has raised £4000, £1000 of that has been given to the school to refurbish the swimming pool. The next steps for the PTFA are the Gardening Club, the Summer Fete and the School crossing. It is important for the village to work together; this may be by becoming a volunteer or by supporting/promoting events.

Cllr Revell thanked Jenna for attending informing the community of the importance of the PTFA.

A short break for refreshments from 7.28pm – 7.48pm.

2. Chairman's Report

A verbal report was given by Cllr Alan Revell.
(Full copy of the report attached to the minutes).

3. Responsible Finance Officer's Report

A verbal report was given by the Clerk/RFO.
(Full copy of the report attached to the minutes)

4. Reports from Suffolk County Council and Suffolk Coastal District Council Representatives

Suffolk County Council

County Councillor Richard Smith gave his apologies for the meeting due to the moratorium period leading to the elections.

Suffolk Coastal District Council

District Councillor Julia Ewart gave a verbal report.
(Full copy of the report attached to the minutes.)

5. Reports from Village Organisations

Kelsale PCC

Cheryl Payne gave a verbal report.
(Full copy of the report attached to the minutes)

Town Lands Trust, Kelsale-cum-Carlton

A verbal report was given by the Chair on behalf of the Towns Land Trust
(Full copy of the report is attached to the minutes.)

KADWAG (Kelsale And District Wildlife Action Group)

A verbal report was given by Keith Dickerson.
(Full copy of the report is attached to the minutes)

Kelsale-cum-Carlton Community Energy

A verbal report was given by Keith Dickerson.
(Full copy of the report is attached to the minutes)

6. Any other matters arising

There being no further questions or discussion the Chairman thanked the representatives and members of the public for their attendance/reports and formally closed the meeting at 8.54pm.

Signed:.....

Dated:.....

CHAIR REPORT FOR APM 1st APRIL 2026

The Parish Council has had another very busy year. A lot of planning applications have been reviewed and responded to. Understandably, the various energy projects take a lot of our time, not least Sizewell C. We do our best to attend the Northern Transport Forum Meetings and hold them to account whenever possible. My thanks especially to Cllr Galloway for continuing to attend these when she is able. PC membership has remained static, but we did lose Caroline Harker and Sarah Courage last year, I thank them both for their input to the PC during their time with us. However, we have managed to co-opt two more councillors, namely - Tim O'Neill and John West, I am sure both these will be an asset to the PC.

The PC represented our Parish at the Remembrance Sunday Parade, held last year in Saxmundham, a wreath was laid to remember to those who gave their lives in all conflicts. Again, a very successful Bonfire & Fireworks Party was held last November, smooth running of the event was made easier by having both mains electricity and water connected. When I read my report in 2024, I mentioned that we were waiting for Carlton Meres to complete signage and road works to stop their traffic using Rendham Road. After all this time, work has been completed, although we were disappointed that only white lines and not kerbing had been installed.

I am pleased to report that the project to improve the area in front of the Committee Room, the junction of Bridge Street and Low Road has now been agreed and funded. It will greatly enhance the look and feel of this part of the village, while at the same time helping to slow down the traffic.

Our Suffolk County Councillor Mr Richard Smith has announced he is to retire after the forthcoming elections. I would like to thank him for helping us financially with donations from his budgets and for always giving his advice when ever needed. I wish him well in his retirement. Also, thank you to our East Suffolk Councillor Julia Ewart, who very much always wants to help this parish as much as she can.

It is important that we recognise the commitment that people put in to making this parish and especially this Village Hall function as well as they do. I would, therefore like to thank the Village Hall Management Committee, all our Parish Councillors, and anyone else who through various other organisations do so much. Not forgetting our wonderful Clerk, Marie. That concludes my report.

I would just like to wish you all a Happy Easter.

Alan Revell
Chair of Kelsale-cum-Carlton Parish Council

Responsible Financial Officer Report 2026

- The balance carried forward as of the 31st March 2026 was £78,909.33. This includes earmarked funds of £52,543.08.
- It was agreed that the Parish precept should be raised in line with inflation for the financial year of 2026/27 to manage ongoing increasing costs; as a result, a request was made of £28,986.00. This is an increase of £1678 from the last request, this is shown as a 3% increase for the homeowners on their Council Tax bill.
- As part of the statutory audit requirement the accounts of 2024/25 were submitted to SALC for the annual internal audit. The internal auditor's report was received ahead of

the submission to the External Auditor (PKF Littlejohn), any recommendations have been noted and actioned. All the copies of the reports can be found on the website. The 2025/26 accounts will be submitted to SALC shortly.

- The Parish Council received CIL money totaling £4362.58. This money has been added to the £40707.87 making a total of £45070.45. Some of this funding has been used to support the Village Hall with assisting the payments to the architect and the quantity surveyor who are assisting with the proposed lift project and with a large sum paid to begin the project of the junction and forecourt outside the Village Hall, but a sum of £30,720.68 has been earmarked for further projects which will include the construction of the improved junction of Low Road and Bridge Street. These items of expenditure are in line with the recommendations by residents of the village using a questionnaire which was circulated to all the households.
- The Parish Council has had some expenditure since the last Annual Parish Meeting, which included a new laptop for the Clerk, some tree maintenance work on the recreation ground, the utility connections on the recreation ground and the new 'gov.uk' email addresses etc. In addition to this there are the everyday expenses such as grass cutting, play equipment maintenance, car park maintenance and the printing of the Community News newsletter. The Parish Council has been able to obtain £1350 in advertising revenue towards the cost of the newsletter, and we hope that more interest in advertising will continue.
- The Parish Council received funding and donations towards the cost of the Christmas Tree (£185), the new noticeboards (£3,031.59) and the Village Hall forecourt project (£6,000).
- There are still vacancies on the Parish Council should anyone wish to join as a Councillor, please contact me.

Kelsale & Yoxford Ward Councillor Report (March 2025 – April 2026) Cllr Julia Ewart

East Suffolk Council – Julia Ewart

Good evening everyone. For those I have not yet met, I am Julia Ewart, your East Suffolk District Councillor along with my family I am a resident of Kelsale. It remains my privilege to represent the Kelsale & Yoxford ward for the coming year, and as I look back, I am struck by how much our communities have endured, supported and achieved together. It has been a complicated year — often demanding, occasionally frustrating, particularly around the Local Government Reorganisation — but also full of moments that reveal the remarkable strength of our villages.

This evening, I want to offer a clear and honest reflection on the year behind us, and on the challenges and opportunities ahead. If I touch on the political landscape, it is only to ensure we are all fully informed about how local government is changing — nothing more.

The plan moving forward is to create three new unitary authorities in Suffolk, projected to save £34 million a year and reinvest £20 million into services. This decision has shaped much of the debate over the past year. East Suffolk will join with Mid Suffolk, while retaining its own statutory departments for education, adult care and other essential services. Boundary changes taking effect this May will move Yoxford into the new Blyth Estuary Division, while Kelsale will join the Saxmundham & District Division, which stretches down to Orford. In my view, these changes reflect two natural “orbits”: Orford aligning with Woodbridge, and Kelsale with Saxmundham. As your District Councillor, I remain committed to strong, consistent representation throughout these transitions.

Across our villages, community spirit remains one of our greatest assets. Our summer fetes, dog shows and local gatherings have been lively, generous and full of neighbourly connection. East Suffolk’s *HERE For You* programme once again visited towns across the district — including Saxmundham, Lowestoft, Kesgrave, Beccles, Felixstowe and Southwold — giving residents meaningful opportunities to raise issues directly with councillors and officers. The Village Hall and Community Buildings Fund has also offered grants of up to £15,000 to support essential improvements.

Here in Kelsale, the Village Hall continues to be a priority. As the heart of village life, its modernisation is vital for long-term use, and I remain committed to supporting the volunteers and trustees working tirelessly on this project. East Suffolk has also announced the £1.5 million *Thriving Places Fund*, launching in April 2026, to help smaller towns and villages protect community buildings, revitalise public spaces and build long-term resilience. This presents a real opportunity.

Much of the past year, however, has been dominated by major infrastructure projects. Sizewell C, Sea Link, LionLink and associated works have caused significant disruption — diversions, delays on the A12, and increased traffic through Yoxford, Kelsale and Peasenhall. During the Sea Link examination, I repeatedly raised concerns about poor coordination between developers and the relentless cycle of consultations. The council is keenly aware of the mental health pressures placed on our communities; only last week I raised this directly at a Suffolk County Council meeting.

Many residents may not be familiar with SALC — the Suffolk Association of Local Councils — which now has funding for a coordinator to support parish clerks in responding to Nationally Significant Infrastructure Projects (NSIPs). I have suggested that all clerks be invited to main meetings, as they are often responsible for drafting formal responses yet are not always in the room to hear the discussion firsthand.

Highways remain one of the issues raised with me most frequently. Highways responsibilities sit with Suffolk County Council, not East Suffolk, and that separation often leads to delays, confusion and unacceptable outcomes. We continue to live with long-term traffic controls relating to the Sizewell Link Road, with current schedules showing management measures running from May 2025 to December 2026. I wish I had more of an update, but this sits firmly with the County Council.

Traffic and development pressures have been particularly acute around Carlton Meres Caravan Park, especially on Rendham Road. The increased traffic, the direction of travel

and the disruption caused by the rather basic installation of the new gateway have not gone unnoticed. I fully understand residents' frustration. This is an example of why the move to a unified East/Mid Suffolk Council in 2028 — bringing planning and highways under one authority — could be so significant, improving accountability and the coherence of local decision-making. In the meantime, this matter will rightly fall to Cllr Smith's successor to address promptly.

Many of you have also raised concerns about safety outside Kelsale Primary School at drop-off and pick-up times. This too is the County Council's responsibility, but I will continue supporting parents and the school. Safety should not depend on petitions — it should be assumed. I will keep pressing County Highways to act. I am pleased to see parents working so proactively alongside Reverend Dave and the governing board.

I want to return briefly to Sizewell C and similar projects. Last month, I undertook a detailed personal visit to Hinkley Point to gain an honest understanding of what hosting a project of this scale truly means. I met an SME contractor, Andrew Cockcroft from Community Services, a long-standing campaigner from Stop Hinkley, and senior staff at Somerset Council. I joined a school visit where the children's questions were a powerful reminder of who will live longest with the consequences. The key takeaway was clear: once roadworks finish, disruption does ease — but large-scale developments put sustained pressure on housing, transport and temporary accommodation, and councils are rarely ahead of demand. The need for more mid-range accommodation — even facilities comparable to a Travelodge — was emphasised repeatedly.

On a practical note, as a member of the NSIP Working Group, I will be presenting a motion next week that I hope to bring to Full Council on your behalf. Many assume that the council always has the resources to respond effectively to NSIP applications, but adequate representation requires funding. Somerset was candid in admitting they missed this detail, and their NSIP team suffered from severe understaffing as a result. It is vital that East Suffolk retains the capacity to represent you robustly during the transition to the new council model, especially because other parts of Suffolk do not fully understand the scale of impact being felt here.

Planning has continued to pose challenges. Slow and inconsistent responses to infill applications remain a problem, and I continue to press for clearer, more timely communication. The Call for Sites process has concluded, and decisions are now being made about which sites progress into the next Local Plan. We urgently need homes for young people, for families and for older residents looking to downsize — and if we fail to plan for these needs, our villages risk losing the generational balance that keeps them vibrant. Without a Neighbourhood Plan, any aspirations or protections for Kelsale — including hopes for Carlton Park — must be fed into the Local Plan now, projecting our needs a decade ahead.

To be absolutely clear: I am not against development. I am for the right development, in the right place, with proper scrutiny and genuine consideration of local impact. Digging up the grounds at Cockfield Hall to create two recreational lakes, moving vast quantities of clay and requiring millions of gallons of water simply does not make sense to me.

This connects directly to my decision to leave a political party and continue as an Independent. I am happy to answer questions about this later, but what I can say now is that last year I became increasingly concerned that certain planning applications were not being scrutinised rigorously enough. I raised concerns repeatedly, evidenced the gaps I saw, and yet approvals continued without the challenge our communities deserve. The proposed estate behind Main Road is a good example: its scale felt disproportionate, and it had already failed inspection once. The Parish concerns — and mine — were really not adequately addressed. This type of event evidenced why I needed to take a firmer position, because my responsibility is to the residents.

The village of Kelsale has also often faced challenges around water supplies. Many of you will recall last summer's water quality incident, when I discovered that Sizewell C had abstracted large volumes of water without permission, causing a drop in the water table and a spike in bacteria levels. Incidents like this underline how vigilant we must remain and how important the true facts are when residents are sick.

I want to touch on council tax. The district precept increased by 4.9%. Yet of the funds you pay, only 8% remains with East Suffolk; the rest goes to pay for services elsewhere in the county. My view is straightforward: you are the client, and the services you receive should reflect your contribution.

Our local businesses — including nearly all of our rural pubs — also deserve support. Many face business rates approaching £50,000 a year. It is hard to see how a rural pub can survive under that pressure. These pubs are community anchors, social hubs and employers, and once they close, they rarely reopen. I will continue advocating for fairer conditions, and I encourage everyone to support our pubs, cafés and bars wherever possible.

On a more practical note: let's discuss the bins. From June 2026, the Better Recycling system will introduce weekly food waste collections, twin-stream recycling, and three-weekly general waste collections. New bins and caddies will arrive between February and May. I did ask the council to trial the system before investing heavily; I think the outcome now speaks for itself. Don't be surprised if you receive two of the same bin or feel they are the wrong size for you. For bin support, call the helpline or email me — I will help get the dilemma sorted.

Despite the pressures, there have been real achievements. East Suffolk Council secured £2.8 million in government funding — plus a further £2 million — to decarbonise leisure centres. The Nature at Work scheme now includes 116 wild space sites. A new community hall is underway in Aldringham-cum-Thorpe. And in Thorpeness, where erosion has destroyed homes, East Suffolk has worked with residents to cover demolition costs not met by central government.

I also want to highlight the work of our Community Partnership. Each cluster of wards has a dedicated Partnership Officer — ours is Sam Kenward that heads up a Community Partnership area. They support local groups, strengthens communication in the area and build stronger links between parishes and the district. The Partnership meets four times a year in different village halls, with every parish invited. These meetings foster meaningful connections and ensure local voices inform the decisions made. It is hoped that Kelsale

might allocated a delegate to attend these meetings – they can come from the community not just the council. Again there is funding involved and recently Framlingham took a great grant home to support a community asset.

As we look ahead, I hope every village in our ward continues to see itself as part of one local team. When we work together — from Parish to Parliament — our voice becomes clearer, stronger and more coherent. That unity is how we protect what matters, shape what comes next and ensure our communities thrive long into the future.

Let me finish by stressing how important it is to be involved in your parish — whether by joining a committee, volunteering, helping behind the scenes or simply sharing your views. Strong communities are built by the people who turn up, speak up and step up. The pandemic reminded us how vital it is to know who needs help and what's happening on our own streets. Those lessons must stay with us. Development, in every sense, means taking ownership of our future, and now is the moment for our villages to shape what comes next. East Suffolk Council stands ready to support this through its *Our Direction* strategy which is here for every village.

Thank you for your trust, your determination and your community spirit. I will continue to serve you as the new councils and elected councillors unfold. Thank you.

Annual report from St Mary and St Peter's, Kelsale

After a visit from the church architect and a structural engineer, we have been told the nave is unsafe, due to the roof. This is in addition to the chancel, which has been roped off since November.

We have, however, been assured it is safe to use the south aisle for services as the roof is of different construction.

This being so, we can hold Sunday services as normal. We have a comfortable capacity for 50-60. We can hold baptisms but not at the font and we can still hold funerals— we can use the bowl that is in the font and move it somewhere safe. We can hold funerals as there is space at the front of the church for a coffin. We have been in touch with Martin Brown, to keep him in the loop. We can also hold smaller weddings - they'll just be more intimate.

Works to be done – will involve scaffolding to go up and assessment and repair each of the cross bars in the roof, re-slate the roof. Potentially look at the floor. Were hoping to bundle the work on the toilet and kitchen in with the repairs.

Next steps – we need the architect and structural engineer to return to do a comprehensive inspection (2-3 days) and write a complete report. Then, fund raising for the work and finding the appropriate craftsmen, will begin and we are hopeful of getting the funds required as the church is Grade 1 listed.

All of this will take a few years but we will adapt to the space, find out what works and what doesn't.

Cheryl Payne

Kelsale cum Carlton Parish Council APM - Town Lands Trust

Town Lands Trust owns the allotments on Low Road and Trust Cottage on Low Road. There are currently around 30 allotment holders and some vacant plots. The trustees wish to thank Bob Paternoster for his continued work related to the allotments.

As per our objectives the Town Lands Trust continues to disburse funds to the Kelsale Education Foundation, Kelsale Welfare Trust, and the church.

Significant work was completed to ensure that Trust Cottage was in a fit and suitable state too.

Rev. David Preece
29th March 2026

Kelsale-cum-Carlton Village Hall

Report to the Annual Parish Meeting – 1 April 2026

1. The Trustees and Management Committee of the Village Hall are delighted to present their report to the Annual Parish Meeting.
2. The Committee was re-elected at the AGM in April 2025 to serve for the current year. I am very grateful to all Committee members who have generously given their time throughout the year to fundraising and the various administrative matters associated with running the Hall. Your contributions are greatly valued. I must mention David Granville-George's work on running our highly successful 100 Club.
3. Further improvements have been made to the Hall over the past year. Notably, the beautiful artwork by Claire Buttle on the fireplace has enhanced the space considerably. Both the Committee Room and the main Hall have been transformed, and the Committee—particularly Simon Ransome—has worked tirelessly to achieve this.
4. We have hosted several successful and well-attended events, including the Summer Walk and Talk led by Charles Cuthbert and Jerry Bowdrey, a range of creative sessions organised by Kayleigh Stubbs, and the Harvest Supper. The Hall has also accommodated several private and public events, with bookings showing an encouraging increase compared to last year. We were especially pleased to host the recent Kelsale School PTA quiz. Collaboration with Church fundraising efforts has also proved mutually beneficial, and we extend our thanks to Cheryl and Jackie for their important role in this partnership.
5. In the past month, our fundraising efforts towards installing a lift and undertaking further improvements have been temporarily paused following a Fire Service inspection on 18 March. This identified the need to enhance our fire protection measures, which may require upgrades to ensure full compliance. The Committee is actively addressing these requirements.
6. We would like to express our sincere thanks to Alan and Edwina and the Parish Council for their continued support, Kelsale Social Club—especially Bertie Buttle for his contribution as a committee member—and Julia Ewart for her tireless dedication to helping us in maintaining this beautiful historic building for the benefit of the community.
7. We firmly believe that the Hall exists to serve the community. Many regard the Hall and Club as the beating heart of the village, and their continued success depends on community support. Whether by attending events, visiting the Club, or hiring the Hall for private functions, every contribution helps sustain its future. If you have time to spare, we would warmly welcome any volunteer support.

Kelsale And District Wildlife Action Group (KADWAG)

Over 85 members have joined Kelsale and District Wildlife Action (KADWAG) since we launched in Kelsale Village Hall on 22 January 2025. We printed 100 copies of the original KcC Biodiversity Action Plan using funding from Suffolk County Council, East Suffolk Council and our own members. I also presented it to 15 Parish and Town Councils over the past year and gave them each a free copy which means that we ran out of copies last month. Therefore, we revised and updated the original BAP and have had another 100 copies printed which have now arrived.

Last year our 2 main priorities were:

1. To remove Himalayan Balsam, an alien, invasive species, from the River Fromus and the Gull Stream. Ken Bate masterminded this and set up working parties morning and evening for over 2 months. 18 KADWAG members were involved and eliminated 99% of it. Unfortunately, the seeds can remain dormant in the ground for over 2 years so we'll have to constantly monitor for regrowth this year and pull it again if it shows any signs of resurgence.

2. To set up a water quality monitoring infrastructure for the River Fromus and its tributaries. In March 2025 Cllr Ewart provided us with £300 from her Enabling Communities Budget to get us started on water quality testing for the Fromus and with this we purchased the basic equipment needed to monitor E.coli levels at several points on the Fromus. However, we had to take our water samples to Lower Ufford to get them tested, so we recently applied for an ECB grant from Cllr Ewart for £400 to build our own water quality test lab and this was accepted. We've now been able to purchase a fridge to store the samples and an incubator to incubate them to show the results. We'll also be able to measure ammonia, phosphate and nitrate levels as well as E.coli. A photo of our new test lab is attached. Thank you to Julia for making this possible.

Of course we've put on many other activities as well, such as drawing up a Management Plan for the Fromus Reserve which was accepted by the SFPT AGM in December and setting up opportunities to teach members how to survey habitats such as ponds and meadows and to measure the girth and age of veteran trees. Finally, on 15 April we're holding a public meeting in Kelsale Village Hall to look at the State of the River Fromus and what could be done to improve it. Looking forward to seeing you there.

Our 2nd KADWAG AGM will be held in Kelsale Village Hall at 7pm on 13 May and you are all welcome.

Kelsale-cum-Carlton Community Energy

After over 11 years of operation, Kelsale-cum-Carlton Community Energy (KCCE) has nearly £13,000 in shareholders' funds and is well on track to be able to pay back shareholders at the end of the (nominal) 20 years of operation. The solar arrays have continued to generate record levels of power due to the hot sunny weather and record profits due to high electricity prices (figures will be given at the AGM - see below).

At the last AGM the Board got the go-ahead from the shareholders to spend £2.5K of shareholders' funds on an electricity storage battery for Kelsale Village Hall, so we bid for a 9.3 KWh storage battery from the Solar Together scheme from Suffolk County Council. This should make the Village Hall independent of the grid for nearly 70% of the year (up from 30% previously). Unfortunately, we ran into 2 problems:

1. The survey from Greenscape Energy revealed that we couldn't install the solar battery at the top of the stairs near the meters because the 1st floor is cantilevered over the passageway at the side of the village hall and it may not take the weight of a 100kg battery. Therefore, we had to propose an alternative that would mount the battery downstairs on the side of the village hall, but this required planning permission as it's a Grade 2* listed building. We applied for and received this, but it took 3 months and we have to put the battery in a cupboard which Simon will build..

2. We applied for a grant of £3,197 (half the total cost) from the Suffolk Climate Action Community Match Funder but this was refused as we didn't have a 2nd source of funding independent of shareholder funds. Therefore, I've now applied to Cllr Ewerts's Enabling Communities Budget for £1,000 to put towards the cost and she's just told me that we've got it. I can now re-apply to the Suffolk Climate Action Community Match Funder for the other £2,197 and have a good chance of receiving it. Thank you Julia for saving the day.

Our AGM this year will be held in my garden behind The Cottages, Bridge Street (next to the Village Hall) at 2pm on Saturday 27 June 2026. Invitations will go to all shareholders and stakeholders so anyone in Kelsale-cum-Carlton will be able to come and find out more about Community Energy and its benefits to KcC.
